

Mr. E. Mike's Art, Mathematics, and Motion

Project 1: The Paper Propeller Sculpture

Focus Topic: Circles

DIRECTIONS: Cut along the solid lines. Fold along the dotted lines. Fold section A then fold section B on top of section A. Make the copters and test them from various heights. Add color to the propellers blades and observe the patterns made by the spinning propellers. Note: you have to color the opposite sides of the propellers.
