

SHOW ME THE MATH 10

Name _____

A budget helps people control spending. A couple goes to an amusement park for one day of fun. They have \$150 budget. Each person eats the same things and buy the same amount of souvenirs and tee-shirts. They play **6 games each**. They enjoy all the attractions listed. Use the price list below to determine how far over their budget of \$150 they have gone.

Determine the total cost of the day at the amusement park and how much they exceeded their budget of \$150.
